AI EDUCATION & CONSULTING WORKSHOP

For Future-Ready Leaders

AI EDUCATION & CONSULTING FOR FUTURE-READY LEADERS

10Pearls

WHO WE ARE

At 10Pearls, leaders and teams are empowered to understand, adopt, and implement AI effectively across the organization. Through executive guidance, hands-on AI adoption strategy, and custom implementation oversight, 10Pearls helps businesses in diverse industries and countries navigate AI transformation with confidence.

Whether providing tailored training for executives, developing a scalable AI roadmap, or overseeing solution deployment, 10Pearls enables companies to harness advanced technologies for measurable success and innovation in a rapidly evolving digital landscape.

Team in Washington D.C

WHAT WE DO

We specialize in:

- **AI Executive Training & Strategy**
  Helping leadership teams future-proof their businesses

- **AI Adoption & Change Management**
  Guiding companies through AI integration

- **AI Training for Teams**
  Teaching real-world AI applications to boost productivity

- **AI Implementation Oversight**
  Ensuring successful AI projects with expert advisory

AI EDUCATION
From short presentations to full day workshops and company programs to learnabout AI.

CONSULTING
We help you navigate AI implementation by working with your teams.

IMPLEMENTATION
We deliver transformative outcomes with AI-driven solutions that are tailored, secure, and built to scale.

OVERVIEW

The **AI Passport Workshop** on Generative AI for Teams has been designed to inspire organizations and help them start their path towards transformation with AI. The main learnings at the end of this workshop include:

- Get inspired by AI opportunities and pragmatic applications in your daily life.

- Learn how Generative AI works.

- Use and experiment with tools that use AI.

- Start the organization's path toward the use of Generative AI.

- Start your personal journey towards better use of AI.

The workshop is completely hands-on and includes exercises and activities on processes, datamanagement, and the search and identification of opportunities to apply in the organization and on apersonal level. Content and specific examples can be tailored to your industry and needs.

GETTING STARTED

Introduction
Generative AI, LLMs, Opportunities
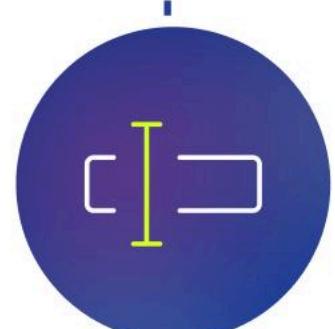

### Creating Prompts
Creating effective prompts

Use of Text, Data & Images
Generative AI use cases
